## How it Works

You will complete a confidential client history form that outlines the areas in your body and life that you would like the session to focus on. This will also help me as the practitioner monitor your progress from session to session. Once you have asked any questions you have, you will relax into the healing session and absorb the vibrations and energy flowing to your body and mind. All of my sessions are virtually performed for your safety and mine. At the end of the session, you can discuss any questions you may have with me. Thank you for the pleasure of working with you to channel Reiki energy to your body and mind!
